A correspondent writes to us to inquire what the facts are as regards Til-

den's abinplaster record. This record covers a period of eleven years, from 1863 to 1874. No, less than fifty-eight mining corporations in the northern peninsula of Michigan, in which Tilden was one of the principal

stockholders and a legal adviser, issued to and paid off their hands in serip of their own manufacture, veritable shiuplasters. This scrip was a legal tender for debts contracted for goods at the stores of the companies issuing them. It was an ingenious way to compel the workmen to take their pay in, goods, and pay for them whatever their em. ployers might see fit to ask. The whole amount issued was \$100,000,000. The scrip mills would probably be running yet but for the fact that some two years ago certain persons were arrested for counterfeiting the scrip. The result of that suit was very different from what the prosecution intended. The accused warved the question of fact involved, and took the hold position that even if they had counterfeited the stuff they had committed no crime. The defense maintained that the currency that line the battle was fought. The CARS AND DAY COACHES from Cleveland contest was a desperate one. If the

> Some of the officers and stockholders of the companies implicated could escape personal censure on the score of ignorance, but Governor Tilden could not. He is a lawyer, and was bound to know what the law was, and as a matter of fact, he must have been perfectly aware of the fraudulent and illegal nature of the scrip. Yet for eleven years he was a party to its issuance, and also shared in the enormous profits arising

from it.

This is not all. A Marquette correspondent, after setting forth, with details uninteresting to the general pub-Desirable Residence Property at a lie, the foregoing facts, adds that "at Sacrifice.—We are authorized to sell at the same time," (that is when these a positive sacrifice, a house and lot on counterfeiters were acquitted) "the rev-South Main street-lot 2, block 11. Thus he was enabled to pick pockets with great facility, often taking the watches and pocket books of men and women while praying at their sides, or while explaining to them the way of salvation. Contioued success, perhaps, made him circless, for while taking part in the exercises at the laying of a corner stone for a church in Uzb.idge, he was caught stealing a watch from a woman who was sharing a hymn book with him during the singing. He was arrested, and then a great number of robberies

DECATUR, ILL. MONDAY, JULY 24, 1876. •

The editor of the Providence Journal paused in the midst of an article about the July moon's "flitting among the fleecy clouds, their edges tinged with silver under her sweet influence, &o," to throw up an undigested cucumber, remarking that he never could have completed the article if he hadn't got that load off his mind.

were traced to him.

"Ma, did you say that pa was never engaged to Miss Sallie Snifkins?" "He, my dear, he never looked at her." Innocent, but persistent child: "Ma, if pa had married Miss Sallie Snifkins, would I have been red-headed?" The new belt for ladies is said to be

made in clasps, four of which go round the waist. It will be difficult, however, to improve upon the old style of, belt, which is made in the shape of a coat sleeve and has an arm inside of it. We have observed, however, that this usually requires more than four clasps.

Though the spring has been back-ward, old Sel turned off the dampers yesterday, and set everything going in fine style. Babies' teeth took a fresh start, and all last night the shirted figures of young fathers moved miserably through the darkness, muttoring ourses from the opera of "O, Hush," and remembering Herod with an admiration they never felt for him before.

A woman whom it would be gross flattery to call a poet, writes a "poem" to the El Kader Journal, beginning: I'm sweet sixteen, ripe as a peach Swinging on a limb, won't anybody reach for me *

Two important discrepencies have been discovered in the democratic platform, as read in the convention and published in the St. Louis and other act. Eastern Democrats state that the official copy is milder, and to vote for the repeal of the day does not necessarily involve a vote against the principle of resumption covered by the whole clause of that act. The last half of the Mongolian plank, as published at St. Louis and elsewhere, does not appear at all in the official copy. The part omitted demanded treaty modifications to prohibit Chinese immigration. An inquiry is on foot to see who has tampered with the platform. There is some anxiety among Western Democrats over the discoveries.

Physicians Cornered

I suppose there is not in the whole of a physician's experience anything in human suffering which calls forth his sympthy and plty, to such an extent, as to witness the scornciating pains of 'a poor mortal suffering from the carful disease of Rheumanism. Heretofore there has been considerable diversity of opinion among medical mion as to the true churacter of this disease; some locating it in the florous or muscular tissues of the system, and others viewing it as an acette nervous disorder, but it is now generally admitted to be a disease arising from a poison circulating in the blood, and further, it is admitted that rheumatism can never be thorotighly cuted without exterminating such poisonous matters from the blood by a constitutional internal remedy. We feel confident that none will be better satisfied and rejoice more than the conscientious physicians, who has found out that a true cure for this shibborn disease like been discovered. BARLY SETTLERS, ATTENTION

For some time past the undersigned has been engaged in preparing for publication a History of Macon county, from its organization up to the present time. One teature of this work will be to give an accurate and consise sketch of each of the early settlers of the county up to and including 1836 I have seen many of those remaining, and had correspondence with some who have removed, but there are yet others, about whom I have been able to get but little information, and I have taken the method of calling the attention of any who were residents of the county prior to 1886, or their decendants, that I have dicated below I do this that the work may be as complete as it is possible to

make it at this late day The necessity and interest of a tangible record of this character of the proneers of the county, who were instrumental in laying the foundation of our material prosperity and making the county what it is to day, it seems to me cannot be overestimated. We owe this duty to those who endured the trials and hardships of the early settlement of the the county as well as to ourselves I but his difficulty was increased when am devoting as much of my time as I

can spare from my profession to this work, and that, too, with doubtful chances of remuneration, and hope none who can give me information will with-

What I desire will be best indicated by the following sketch of the family of

SAMUEL BRADEN was boin Nov. 5, 1769, in Ireland, and emigrated to America the year peace was declared, after remaining in Pphiladolphia a short time he located in —— county, South Catelina, where he married Nancy who was born in the latter State, near who was born in the latter State, near Charleston, during the Revolutionary war, (date unknown). They removed from South Carolina to Kentucky, and thence to Tennessee, and from the latter State to Mason county, Ill., in Sept. 1829 Mr B died in 1883, and Mrs B in 1842 Of their three children—

Sidney R., was born Nov. 4, 1814, in Connessee, removed to Illinois with his father, and returned to Tennessee the following year, where he died in 1830.

from 850 to 400 pages, and published about Jan 1, 1877. Respectfully, yours,

JOHN W. SMITH.

The necessity of collecting the incidonts connected with the early history of the county, and putting them into tangible shape for preservation, will be apparent to all The old settlers are rapidly passing away, and a few years more will witness the departure of the last of them. How important, then, that the unwritten history which they possess should be committed to paper at once Mr. Smith is peculiarly well adapted to the work of preparing such a history. A native of the county himself, he has a just pride in everything

relating to its history The following is a brief synopsis of

The speaker then proceeded to explain the meaning of the word blessed as used in the text, and said that it referred to the feelings themselves, and also to the good that comes as the result of something done. Railroad, between Phillip Riebsame and John Maddox, who live next door neighbors to each other on East Wood street east of the that there had for some time been disagreements between the wives of the two men, and also between the children of the two families.

On Saturday afternoon some words passed between the oldest boys of the two households, and Riebsame's boy broke a small stick or cane which belonged to the other lad. For this Maddox spoke to Riebsame's boy, telling him that he had done wrong. Early in the evening Mr. M started to come up in town, and Riebsame seeing him pass his door started out and followed him, calling him to stop as he wanted to see him. him and giving him a heavy blow in lick taking effect near the nipple, and the other just below the ribs, making two ugly wounds. CHAIN PUMPS! BALTIMORE & OHIO

THE SUBSCRIBER WOULD RESPECT-fally announce to the citizens of Deca-tur and Macon and adjoining counties, that he has secured the EXCLUSIVE RIGHT to

Water-Puritying

Rubber Bucket Chain Pump,

And is prepared to furnish said Chain Pumps on short notice. The advantages of this Pump over many others are many. The Chain being buttonless, it is much lighter, consequently it is not likele to break, and works much easier. The RUBEER BUCKETS which are attached to the Chain will not wear the Tubing, consequently it will last longer than when Metal Buttons are used. It is, positively, ANTI-FREEZING. It is a positive WATER PURIFIER, as each Bucket is constructed with an AIR OHAMBER, which carries a given quantity of pure air into the water, which immediately diffuses through the entire body of water, purifying and desaning, and rendering it fit for use.
